Professional Experience

Remote – Try SmartBite Sdn. | Malaysia   **Jan 2025 – Present**

Full Stack Developer

At SmartBite, I am working as a full stack developer, building scalable food delivery and corporate catering solutions using modern technologies. Leveraging Angular, Node.js, Express, MongoDB, and Next.js, I deliver end-to-end features from backend APIs to responsive front-end interfaces.

- Developed and optimized RESTful APIs with Node.js and Express, ensuring high performance and secure data handling.
- Designed and implemented dynamic, responsive UIs using Angular improving user experience and accessibility.
- Integrated MongoDB for efficient data storage, retrieval, and aggregation, supporting high-volume transactions.
- Collaborated with cross-functional teams in an Agile environment to deliver high-quality, production-ready features.
- Contributed to code reviews, CI/CD pipelines, and best practices in version control and deployment.

Remote – CommerZeo | Canada   **Feb 2024 – Dec 2024**

Full Stack Developer

At CommerZeo, I joined as a full stack developer remotely and development of a Shopify-like application using CodeIgniter, Node.js, and React, enabling clients to create and manage online stores. Enhanced platform performance and scalability, and collaborated with cross-functional teams to deliver customized solutions.

- Developed a Shopify-like application enabling clients to create and manage online stores, Utilized CodeIgniter, Node.js, and React for full stack development, Customized platform features based on client needs to optimize store performance.

1

- Launching multiple client stores, increasing user engagement
- Collaborated with cross-functional teams and participated in Agile methodologies

Techibits | Karachi, Pakistan   **Aug 2020 – Feb 2024**

Software Development Team Lead (Jan 2021 – Feb 2024)
Software Engineer (Aug 2020 – Dec 2020)

Led the development of resERP and resForce at Techibits, delivering comprehensive real estate management solutions to over 100 clients. Advanced from Software Engineer to Software Development Team Lead, overseeing project execution and ensuring client satisfaction.

- Spearheaded the development of resERP and its mobile application on React Native, a comprehensive Windows-based solution for real estate management over 100 satisfied clients and each clients have many customers, overseeing the creation of modules including supply chain, builder, and maintenance.
- Led the development of resForce, a CRM tailored for real estate builders, enabling efficient lead management from inception to closure, resulting in over 10 satisfied clients.
- Managed a team of developers, providing guidance and support to ensure project success and timely delivery.
- Managed server operations on Contabo for 100+ clients, handling manual updates, resolving conflicts, setting permissions, and running jobs to ensure seamless functionality and performance of software solutions.
- Collaborated with cross-functional teams to gather requirements, design solutions, and implement features that meet client needs and industry standards.
- Acted as a key point of contact for client communication, addressing inquiries, providing technical assistance, and ensuring client satisfaction.
- Demonstrated leadership and strategic vision in driving the development and growth of innovative software solutions for the real estate industry.

Octaves Technology – Remote | Malaysia   **Feb 2018 – July 2020**

Software Engineer

At Octraves Technology, I drove the development of critical finance and tour management modules. Using my web technology expertise, I designed, tested, and deployed robust solutions.

- Developed and managed critical modules in back office finance and tour management systems, resulting in a 20% increase in system efficiency.
- Led requirement gathering, design, development, testing, and deployment in project, ensuring on-time delivery and client satisfaction.
- Acquired in-depth knowledge of finance and tour management domains, facilitating the successful implementation of tailored solutions.
- Met project deadlines with high-quality deliverables, achieving a 95% on-time delivery rate.
- Collaborated effectively in team environments, contributing to a 25% improvement in team productivity.
- Recognized for exceeding client expectations, receiving commendations for outstanding performance and innovation.
